Tow My Camper – 1 Day Duration

Having a 4WD is great but having a camper trailer to go with your 4WD is better! Camper trailers give you the freedom to pull up on the side of a track pretty much where you like, with creature comforts that are a huge improvement on a tent. But if you haven't towed before, that lump on the back might take on epic proportions and that's where Adventure 4WD's **Tow My Camper** program can help.

The course is conducted on a Saturday, with a morning theory session at our Collinswood classroom that'll explain the hitch, weight implications, tyres, pressures and what goes on when you're on the road. With pre-starts complete we'll hit the trail, en-route to the Barossa Valley. We'll see what influence the trailer has on your 4WD on the highway, both on bitumen and dirt and learn some courtesies that might prevent a bit of road-rage.

The afternoon practical revolves around a number of things. First task is learning how to accurately reverse and rely on your mirrors. It should be a simple process, but it fills many drivers with fear. We'll show you how to tackle the challenge nice and slow, with plenty of time to correct your steering (you won't believe how many divorces we've saved with this one!). After that we'll progress to the off-road track and the fun starts in earnest. We'll see the impact the trailer will have on your approach/rampover/departure angles, the benefits of using LOW range and reducing tyre pressures. You'll be amazed at just how far you can take a camper off the beaten track once you know how!

With those skills now up your sleeve there'll be no stopping you, nearly any track, anywhere will be worth a look, with your home away from home right behind you.

- Take a look at ownership issues
- Discussion on destinations to journey to with travel guides included in your course pack
- Analyse the tow vehicle, the trailer and weights, the hitch and make thorough the preparation
- Practice with your own vehicle and trailer in genuinely difficult terrain
- Build confidence quickly and safely – even reversing!
- Learn proven techniques designed to make you safe and keep you mobile

You Need

- A 4WD, a high-clearance, dual-range 4WD wagon or ute with a half tank of fuel as a minimum
- Your own off-road camper trailer, set with a holiday load
- If you haven't got a vehicle or trailer, give us a call about our preferred hire vehicle partners
- Your lunch and drinks (sorry no alcohol) or you can elect to buy lunch in Lyndoch during the break
- Clothing appropriate for the forecast conditions and closed footwear
- Hat, sunscreen and sunnies
- Don't forget the video or camera!

Cost

- \$750 per vehicle including up to 2 drivers (please leave the children at home, there's lots to learn)
- **Motoring Association Members receive 10% off, just quote your membership number**
- Book with Adventure 4WD phone 83420202 or book on-line on the A4WD website
- Ask about a gift voucher, it's a great way to say you care!

Locations and Times (See Calendar For Scheduled Dates)

- Meet at 0830 on your scheduled date at Adventure 4WD 45 North East Road, Collinswood (at bus stop 12 heading out from city), there's plenty of off-street parking in our rear yard
- We'll then provide the notes for the theory session and get stuck into the pre-start checks
- Late morning we'll journey to the Barossa Valley for lunch at Lyndoch, later we'll tackle the trails at our training property nearby
- Course conclusion around 1630
